OF COURSEFINED FOR FAILURE  
TO PAY POLL TAX.

The police court this morning presented a scene such as may be met with only in a court of record when Mayor Coffman called the case of the City of Chickasha vs. J. W. Preston, charged with failure and refusal to pay his poll tax. With all the skill of a district judge Mayor Coffman brought out the evidence in the case. When the defendant alleged he paid his tax in El Reno, for the year 1916, before removing to Chickasha, Mayor Coffman demanded his receipt. When the receipt was forthcoming, purporting to have been signed by Clarence White, one of the commissioners of the city of El Reno, Mayor Coffman manifested the defendant a letter to read, written by W. P. Deardorff, a com-

missioner of El Reno. Mr. Deardorff's letter stated that El Reno had up to the present collected no poll tax for the year 1916; that the receipt which defendant claimed to have and which he had at an earlier date shown Commissioner Bates of Chickasha, was said to bear date April 15, 1916, and be signed by Clarence White; that Clarence White went out of office as one of the commissioners of El Reno on April 11, four days before the alleged receipt bore date of issue.

Following the introduction of the letter from Mr. Deardorff in evidence, Mayor Coffman stated that he found the defendant guilty of refusal to either pay his poll tax or work the same out and that he would impose upon him a fine of \$10 which would place his total indebtedness to the city, including the poll tax, at \$12.

## How the Texas Tube test happened!

IT nettled Bill Parr considerably! So many motorists had carelessly stated that "all Tire Tubes are just rubber." He determined to show some folks the difference. Owners of cars would never forget.

"Boys—how strong do you think this Brown Tube actually is?"

"Do you believe it is strong enough to tow Mr. Oden's five passenger Car, with four people in it, for 20 blocks?"

"You don't, eh?"

"Well now here's a bit of a bet I want to make with any or all of you."

"I will bet you a Dinner that this little old regular Goodrich Tube (34x4) will not only tow Mr. Oden's Car, but will tow all three of your Cars—fully passengered,—through the streets, for the full 21 blocks (more than a mile and a half)—starting and stopping as many times as the crowd makes it necessary."

"I will,—if you Gentlemen are agreeable,—fine up all four of your Cars, right here and now, take three regular Goodrich Tubes hap-hazard out of their boxes,—the one tube between each two Cars, (which means hauling three Cars on the first Tube) and tote You—all that way to 'The Corners.'"

"Are you willing to bet a Dinner that any one of the three Tubes will go broke on the way, or show a flaw which would leak Air, or prevent its being used for its original Tire purpose afterwards?"

"You are, eh?"

"Well,—the Bet's on!"

"Come along, and you be the Judges."

THE Dinner was a very Cheerful Affair. As Oden said afterwards (when putting up his share of the Bet) "you could have bet me a Million on that, Parr, and I'd have taken you up—even if I had to borrow the Million."

"I don't see how the blamed Tubes ever did hold out,—especially going up Saco St. under such a strain."

"With eight people in the last three Cars,—and a total load of over 8,000 pounds I sure thought to hear something snap before, Second Block."

"Whaddye put into that Brown Goodrich Rubber anyhow, to make it hang together like that?"

Fritz said that what puzzled him most was the brown Rubber Tubes "not being all stretched out of

shape after such a tug, even if they did hang together at the finish."

"Look you," said he, "when we released the load,—after the haul,—they instantly snapped back into just three-quarters of an inch longer than they were at the start!"

"And that 3/4 of an inch, they took up again in 100 hours rest."

"WELL, boys," Bill Parr remarked,—as he smoothed out a wrinkle in his well-filled vest, "that'll stop the Argument about all Tire Tubes being 'just Rubber,' won't it?"

"If the Brown Stuff that tote all you Heavy-weights,—and your Cars,—for 21 blocks, without a Sign of Heavy Duty afterwards, isn't something MORE than 'just Rubber,' like other Tubes,—then you'd better buy the 'Just Rubber' kind hereafter."

"I'm going to ask all of you to sign your names to this 'Texas Tire Tube Test'—just to show that you have taken part in a regular Exploit which is mighty well worth recording."

So indeed they did,—and here is the affidavit:
